

A man with a beard and short hair is focused on working on a robotic device. He is wearing a light blue sweater. The device has many colorful wires (red, yellow, green, blue, purple) connected to it. The background is dark and industrial, with a vertical metal structure visible on the right.

CALLING ALL INVENTORS IT'S YOUR TIME TO FLY

Boeing and GoFly challenge you to make people fly. The GoFly competition encourages teams of innovators, inventors, engineers, and makers to design and build a personal flying device that anyone can fly anywhere. Teams receive support from aviation experts as they bring their devices to life, compete for \$2,000,000 in prizes, and show off their devices in the Final Fly-Off.
